

## C&C PROGRAM BACKGROUND & BENEFITS

RLM has a new **Construction Program** for all U.S. Construction Companies & Contractors working anywhere in the contiguous U.S. (all states except Alaska, Hawaii, and Puerto Rico). With a focus on *industrial construction* (i.e. *manufacturing plants, distribution centers, and warehouses*), the RLM **C&C Program (Construction & Contractor Program)** is designed to supply construction companies with remarkable discounts on the equipment and products they need in the following areas:

### **TYPES OF PRODUCTS PROVIDED**

- ✓ Construction Barrier Systems
- ✓ Loading Dock Equipment
- ✓ Bollards
- ✓ Safety Barriers
- ✓ Industrial & Commercial Signage
- ✓ Pallet Racking
- ✓ Storage Solutions
- ✓ Gantry & Jib Cranes
- ✓ Hoists & Trollies
- ✓ Drywall Panel Hoists
- ✓ Lift & Tilt Equipment
- ✓ Fork Truck Attachments
- ✓ Carts & Dollies
- ✓ Drum Handling Equipment
- ✓ And more...

### **GOAL OF PROGRAM**

The goal of the C&C Program is to provide U.S. Construction Companies & Contractors with the majority of equipment and products they will require for almost any new “industrial” build. Not only does RLM provide equipment and products your end user’s will require for the exterior and interior of their new building, but many of the safety barriers and equipment you as a construction company will need for your own use. With the C&C Program, you will receive the same great pricing for “all of the above”. This makes procurement easy; find almost everything you need with one company, while adding a substantial amount of savings to increase your bottom line. While RLM has great prices and an incredibly versatile selection of products, it does not have the connections to get in “early” on many of the new builds that take place throughout the U.S. For this reason, RLM would like to partner with U.S. construction companies and contractors that naturally make those connections in their industry. Working together, both sides may benefit.

## **BENEFITS OF PROGRAM**

---

- Work with a Brand that has been in Business **Since 1957**
- Receive **Industry Leading Discounts**
